See instructions on how to calculate your Kua on the following page

unique & effective ways  
to improve your life

**Step 1)** Add the numbers together of your year of birth to create a single digit i.e.  
1975 = 4, 1983 = 3, 1969 = 7

**Step 2)** If you are female add 4. For a female born in 1969 = 7.  
7 plus 4 for a *female* = 11 = 2. Your Kua is 2

If you are male subtract from 11.  
For a *male* born in 1969, subtract 7 from 11 = 4. Your Kua is 4

Note: A year that adds up to 5 for a *female* becomes 8 Kua.  
A year that adds up to 5 for a *male* becomes 2 Kua.

*Remember Chinese New Year begins around February 4 each year, so if you were born on February 1, 1969 the year you calculate for your Kua is actually 1968.*
